

Group: [name of group]  
Tutorial: [day, time, tutor]

NOTES:

- This example uses a UI fragment taken from the lecture on mockups, to illustrate how to submit your design in week 4. This example only shows 3 screens of a UI.
- We estimate you’ll probably need 1 or 2 A3 pages to illustrate your customer UI, and 1 page to illustrate your vendor UI.
- For your submission in week 4, you only need to show one screen size and orientation. For example, you might want to use “phone portrait” for the customer UI, and “tablet landscape” for the vendor UI.
- Submit a single PDF that contains both UIs.

Include all the screens you created in your UI mockup.

Illustrate the major User Flows using arrows and annotations to show transitions between screens.
